

ENVIRONMENTAL MANAGEMENT POLICY STATEMENT

Environmental Management Policy Statement

Western Electric Contractors Limited is a professional and environmentally conscious organisation which acknowledges the impact that our operations may potentially have on the environment.

The clear objective and commitment of our business is to minimise any impact on the environment by:

- complying with all applicable legal and other requirements to which Western Electric Contractors Limited subscribe.
- preventing pollution and reducing waste wherever practicable
- taking action to identify, eliminate or reduce, as far as practicable, any potentially adverse environmental impacts
- operating a management system
- ensuring effective and expedient incident control, investigation, and reporting, and
- always operating in a socially responsible manner.

Objectives and targets are consistent with the stated aims of this policy to comply with all applicable requirements, pollution prevention and continually improve.

The Directors have ensured that this policy has been implemented, maintained, and is reviewed for continuing suitability. It has been communicated to all persons working for or on behalf of Western Electric Contractors Limited and is available to members of the public on request.

All employees will be provided with the necessary resources, equipment, information, instruction, and training to fulfil the requirements of this policy.

The operation of this policy and the associated processes will be monitored and reviewed on a periodic basis to ensure that they remain current and applicable to the company's activities.

This policy has been communicated to all applicable persons working for and on behalf of Western Electric Contractors Limited and is available to all external bodies and members of the public upon request.

Paul Cull - Managing Director
